

## Enrolling in DeerOnline

Go to the <http://www.deeronline.net/> and click on the DeerOnline button.

To login your username is last intial, first intial, and 5 or 6 digit student ID (be123456). Their password is their 6 digit birthdate (070761).

Now that you are logged in you need to enroll in your course. Under Deer Online School you will see a list of all the courses being offered this summer.

There are multiple choices for each course. Your teacher will need to tell you which course you should enroll in. Click on the course they are enrolling in.

You will be prompted for an enrollment key. Your teacher will need to give you the key.

BCIS-A-001

Teacher: Marla Chandler

The first semester of Business Computer Information Systems introduces students to basic computer knowledge and Microsoft Excel.

The step-by-step textbook used for this course will cover the basics of the software in a very easy way. Along with the textbook, students will be evaluated through class assessments evaluating comprehension and production.

**Your teacher will need to give you this key.**

This course requires an 'enrollment key' - a one-time password that you should have received from [Marla Chandler](#).

Enrollment key:

After you have put in the enrollment key they should click on the Enroll me in this course button.

They are now officially enrolled in the course.
